Forecast for Saturday 04 Dec 2021

Weather: Cloudy with showers or longer spells of rain, these turning to snow above 600m. The showers may be heavy at times and may merge to give a longer spells of snow, with a low risk of temporary blizzard conditions over higher summits. Any showers or longer spells of rain, sleet and snow become confined to eastern hills this evening, as clear spells develop for western areas.

Chance of cloud free mountain/hill tops above 600m: Around 60% at first, later becoming close to zero at times from late morning and through this afternoon. This evening becoming 90% across western areas, and 40% across eastern areas.

Visibility: Occasional cloud above 450-550m at first, becoming periods or persistent above 500m from late morning and this afternoon, and again across eastern areas this evening. Otherwise visibility very good falling to several kilometres in showers and a kilometre or less in heavy snow showers and near zero in temporary blizzards.

Forecast for Sunday 05 Dec 2021

Weather: Some clear spells overnight for western areas, but cloudy with spells of sometimes heavy sleet or snow for eastern areas. Further sleet or snow showers expected through the day, mainly across eastern hills, with limited bright or sunny spells developing, the best of these in the west. Becoming dry with through the evening, with some clear spells.

Maximum wind: Northerly 30-35mph, gusts around 50mph over ridges and summits, decreasing 15-20mph by early afternoon becoming 10mph or less in evening.

Chance of cloud free mountain/hill tops above 600m: Overnight becoming generally 20%, but locally 40% across the far west. Through the day gradually improving 60% across the Yorkshire Dales, then 80% through the evening.

Visibility: Widespread cloud above 500m overnight, with some breaks possible for western areas, until mid-afternoon. Then cloud becoming broken above 600m from mid-afternoon. Outside of the cloud very good visibility, perhaps falling to a kilometre or less with periods of snow, especially heavy snow.

Temperature: **Valleys:** Around plus 2 or 3 Celsius at dawn rising to 6 or 7 Celsius by day
At 600m: Around zero Celsius
Freezing level: Around 600m
